SPECTROSCOPIC
S O L U T I O N S

COMPANY PROFILE

The companies Analytical Chemist (Jan de Bruyn) has 30 years experience in service of Anglo American Corporation, Anglo Vaal, Iscor and Atomic Energy Corporation. The main emphasis as a Research Chemist, is the development and application of advanced chemical analysis and methods in spectroscopy (ICP-OES and ICP-MS).

DE BRUYN SPECTROSCOPIC SOLUTIONS was established in 2002 by Jan de Bruyn (Analytical Chemist). The laboratory is fully equipped to give our clients the best service and support, reliable Certified Plasma Standards and Instrumentation supplies and consumables for spectroscopy.

DE BRUYN SPECTROSCOPIC SOLUTIONS manufactures Certified Plasma Standards locally. All Plasma Standards "ULTRASPEC" will be accompanied by a Certificate of Analysis, traceable to a "NIST" Standard. We customize standards to the client's specification. We manufacture and distribute the "ULTRAPURE" range of Ultrapure Acids and Distilled Water for ultra trace in-organic analysis.

DE BRUYN SPECTROSCOPIC SOLUTIONS supply Certified reference materials and Research Chemicals for all chemical and spectrochemical analysis techniques.

Through the efforts of a highly specialized group of dedicated professionals DE BRUYN SPECTROSCOPIC SOLUTIONS is committed to insuring complete customer satisfaction, for the goods and services it manufactures, distributes and supports.

Please look on our Website at our products and services rendered, if you require any of the mentioned information, please don't hesitate to contact or e-mail us:
